# ODORANT VAPOR FLARES

4" Standard

8" Standard

4" Mini

## Odorant Vapor Flares

Used to safely burn off odorant vapors contained in natural gas, propane or butane that are under pressure in cylinders, tanks and similar vessel, without releasing foul odorant sulfur smells to the atmosphere.

### 4" Mini Flare

- Perfect for maintaining optimum pressure on odorizer expansion tanks and smaller bulk tanks.
- Low profile for convenience and portability.

### 4" Standard Flare

- Ideal for a wide range of applications.
- Increased capacity over the 4" mini flare while maintaining ease of portability.

### 8" Standard Flare

- Increased capacity for larger applications.
- Folding legs for portability.

**Optional Swagelok™ hose & fitting package and Pelican™ vapor resistant carrying case available.  
(Recommended if not already in possession)**
